1. A woman, 16 weeks of gestation, who has been diagnosed with Zika virus infection, presents to the obstetrician for antenatal ultrasonic screening to check for fetal abnormalities. The ultrasound demonstrated abnormal findings and the patient was referred to a specialist for further tests. **Assign the correct ICD-10-CM codes for this encounter.**

2. A patient with previously diagnosed hearing loss is seen for her annual audiological evaluation. She has a history of left tympanic membrane perforation due to middle ear infection that resulted in moderate conductive hearing loss and also has severe right sensorineural hearing loss. **Assign the correct ICD-10-CM codes for this encounter.**

3. A patient presented due to abdominal pain, bloating, and diarrhea. The patient was tested for celiac disease which was found to be negative. The physician diagnosed the patient with non-celiac gluten sensitive enteropathy. **Assign the correct ICD-10-CM code for non-celiac gluten sensitive enteropathy.**

4. A patient underwent placement of two overlapping drug-eluting stents to treat a long lesion in the left anterior descending coronary artery with another drug-eluting stent placed in the left circumflex coronary artery. In addition, two non-drug-eluting stents were placed in the right coronary artery to treat two separate lesions. **Assign the correct ICD-10-PCS codes for the procedure performed.**

5. A patient with unexplained syncope, who had recently undergone single-chamber leadless pacemaker implant insertion, presents for repositioning of the pacemaker. The right femoral vein was re-accessed with wire insertion into the inferior vena cava. The device was grasped and repositioned in an apical septal position 1 mm to the right of the original position. **Assign the correct ICD-10-PCS code for the repositioning of a leadless pacemaker.**

6. A patient presents with bleeding duodenal ulcer, and an esophagogastroduodenoscopy was performed. Multiple clips were applied to the vessels to control the multiple hemorrhaging ulcers. **Assign the correct ICD-10-PCS code for the procedure performed.**

7. The patient previously underwent a left total knee replacement but the tibial component has now come loose. At surgery, the joint is exposed and inspected with no evidence of infection. The loose tibial component is then re-cemented to the underlying bone. **Assign the correct ICD-10-PCS code for this case.**

8. A patient undergoes a craniotomy for resection of a brain tumor. Immediately following the resection, Gliadel® chemotherapy wafers are placed into the resection cavity. **Assign the correct ICD-10-PCS code for placement of the Gliadel® wafers.**

9. A 62-year-old male patient complained of pelvic pain and pressure, along with urinary frequency. After diagnostic workup, the provider documented chronic bladder pain, etiology unknown. **Assign the correct ICD-10-CM code for chronic bladder pain.**

10. A 57-year-old male patient complained of leaking out after he urinates. The provider diagnosed the patient with post-void dribbling/post-micturition dribbling. **Assign the correct ICD-10-CM code for this condition.**

Coding Clinic
Continuing Education Quiz
Due on or before April 30, 2017

Instructions
Registered Health Information Technicians, Registered Health Information Administrators, Certified Coding Specialists and Certified Coding Specialists—Physician-based may earn one hour of continuing education credit toward AHIMA’s continuing education requirement by completing this test with a minimum score of 70%. This test is available to both personal subscribers and employees of institutions that subscribe to Coding Clinic. Complete the quiz, fill in information on both sides, and type or print clearly your name and mailing address in the space provided. Fold the insert on the dotted lines on this page, and mail to the following address:
Central Office on ICD-10-CM/PCS
Attention: Continuing Education
American Hospital Association
P.O. Box 92247
Chicago, IL 60675-2247

For your return address: Please type or print clearly the information within the dotted box below.

Name

Address

City/state/zip

Enclose check or money order for $20 (handling fee). Make check payable to the American Hospital Association.
Do not send cash.

The quiz will not be graded and the $20 fee will be forfeited if the quiz is not postmarked on or before the date indicated on each test.

No credit will be given if the score is less than 70%, the test is incomplete, postmarked after the designated date, or submitted without the $20 handling fee.

Forms may be photocopied for use by directors of medical records or coding supervisors for assessment of coding staff’s understanding of topics presented in Coding Clinic.

Note: The Central Office on ICD-10-CM/PCS will not retain records of achievement. The practitioner is responsible for retaining the verification form returned by AHA and reporting the credit on AHIMA’s official continuing education reporting form.

Do not send the AHA verification form to the American Health Information Management Association.

Please duplicate your completed Continuing Education Quiz and retain the copy for your purposes.
